

Volunteer Role Profile

Volunteer Role: Tech Team Member (Visual & Livestream)

Volunteer reports to: Worship Coordinator and Church Leader

Why we want you

Worship at FOBC is not just about what we sing, but about creating an environment where people can encounter Jesus without distraction. The visual and livestream elements of our Sunday service play a vital part in helping the congregation engage in worship and in enabling those unable to attend in person to still be part of our church family.

We are looking to build a dedicated Tech Team who have a heart to serve, a willingness to learn and a desire to use their practical skills to support what God is doing in our church.

We want you to help us in doing this by being part of our Tech Team.

What you will be doing

- Operating the presentation computer during Sunday services, using Proclaim to display song lyrics, Bible readings, notices and other service elements clearly and at the correct times.
- Supporting the worship leader and service leader by ensuring smooth visual transitions throughout the service.
- Using OBS to manage and stream the Sunday morning service live to social media platforms.
- Assisting with basic set-up of equipment before the service (computer, screens, livestream setup) and ensuring everything is ready in good time.
- Currently our model is that Tech Team members are asked to arrive at 9am, ready to support sound check at 9:15am, take part in the Team Huddle at 9:50am and pre-church prayers at 10am. (This may adapt as service structures change.)

- Making sure to put your availability into ChurchSuite so that rotas can be created. Also letting the relevant Team Leader know with as much time as possible if unable to attend.
- Following the direction of your Team Leader, working within any risk assessments as provided.
- Operating within the values of Four Oaks Baptist Church, reflecting Christ in all you do within your role.

The qualities and skills you need

- A teachable heart and a willingness to learn new systems (no prior knowledge of Proclaim or OBS is required).
- A basic understanding of computers and confidence using simple software.
- Attention to detail and the ability to stay focused during the service.
- A calm and reliable approach, especially when problem-solving.
- A team player.
- A sensible regard for health and safety.

What's in it for you

- A chance to belong to something bigger and play a key role in enabling worship and outreach.
- Training and ongoing support will be provided by your Team Leader.
- Get to know others in our church community, walking in fellowship and friendship with others.
- An opportunity to serve your community, church and Christ through using your practical and technical skills.
- Be part of building our FOBC Vision for the future.
